

User Manual

The purpose-driven language lab

Congratulations! You're now the proud owner of the Digital Linguistic Mentor [DLM] – the revolutionary Java-based language learning laboratory that blends time-tested methodologies with interactive technology to deliver a superb teaching and learning experience!

Proudly delivered from the shop floor of **Thaliyola InfoTech Pvt. Ltd.**, DLM is a spanking new, top-of-the-line and user-friendly language learning platform, painstakingly developed from the ground up, by our team of experts with over 30-plus years of expertise in delivering world-class language learning solutions from pioneering analogue labs to futuristic software-driven wonders, supported 365 x 24 x 7 by our in-house help desk & after-sales support team.

Detailed below are step-by-step instructions and guidelines with screenshots and icon snapshots to familiarize you with using DLM. We would recommend that this manual be retained by the Mentor and clarifications of usage be provided verbally on request to the Mentee to safeguard the privacy of the Mentees details available to the Mentor. Of course, our tech-support will be providing you a comprehensive user-training on DLM at the time of installation and would be available round-the-clock to lend you a helping hand.

Enjoy – Teaching & Learning!

MENTOR/ADMIN WORKSTATION

1. Powering on the Mentor Console

Double click the mouse on this icon  to start the application
OR

Right click  and then click "Open" to run the application.

2. Registration/Login Screen pops open as captured below:

Figure 2.1

3. Registration

Select  . Registration is a one-time only mandatory process. Enter your Name, create your very own login user ID and set a password to protect your sessions. **[NB: The first registered user will be the DLM Administrator by default.]**

Every user has a unique log-in ID and profile that is password-protected

thereafter. Fill-in your credentials and click  to authenticate yourself as the bona fide Administrator/Mentor of the lab.

Figure 3.1

Once successful registration below-captured screen pops-up:

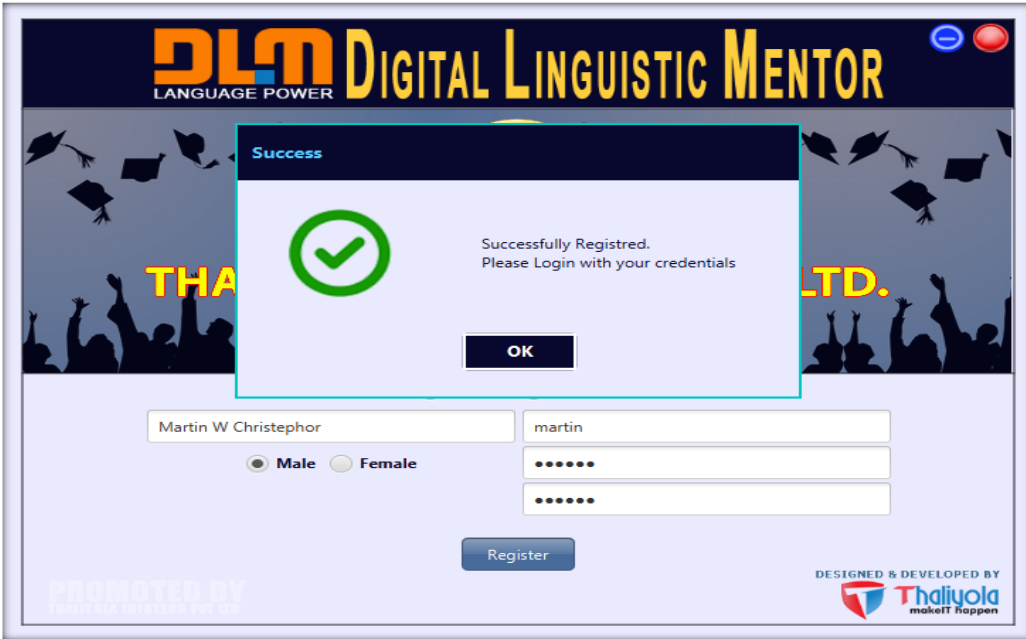

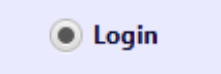

Figure 3.2

4.Mentor Login

To login to your profile click on  enter your credentials then click

 button as shown in the screen-shot below:

5.Homepage

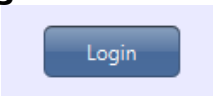

After login  it opens the home page or the master-control/ dashboard window as shown below:

Figure 5.1

Kindly note that we have marked each of the controls A-H on the homepage screenshot to explain their function with clarity.

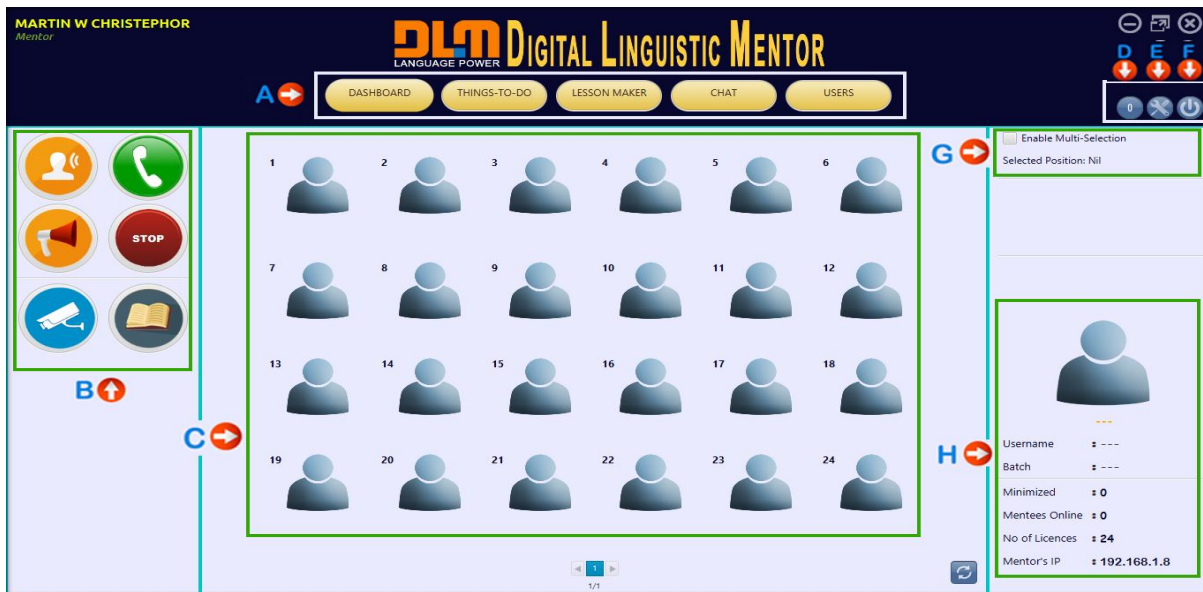

Figure 5.2

A: There are five different functional tabs marked here, by clicking on each tab user will get different activity pages as listed below.

: Is the homepage of the Mentor software .This will help Mentor to control and monitor all the user's in the Lab.

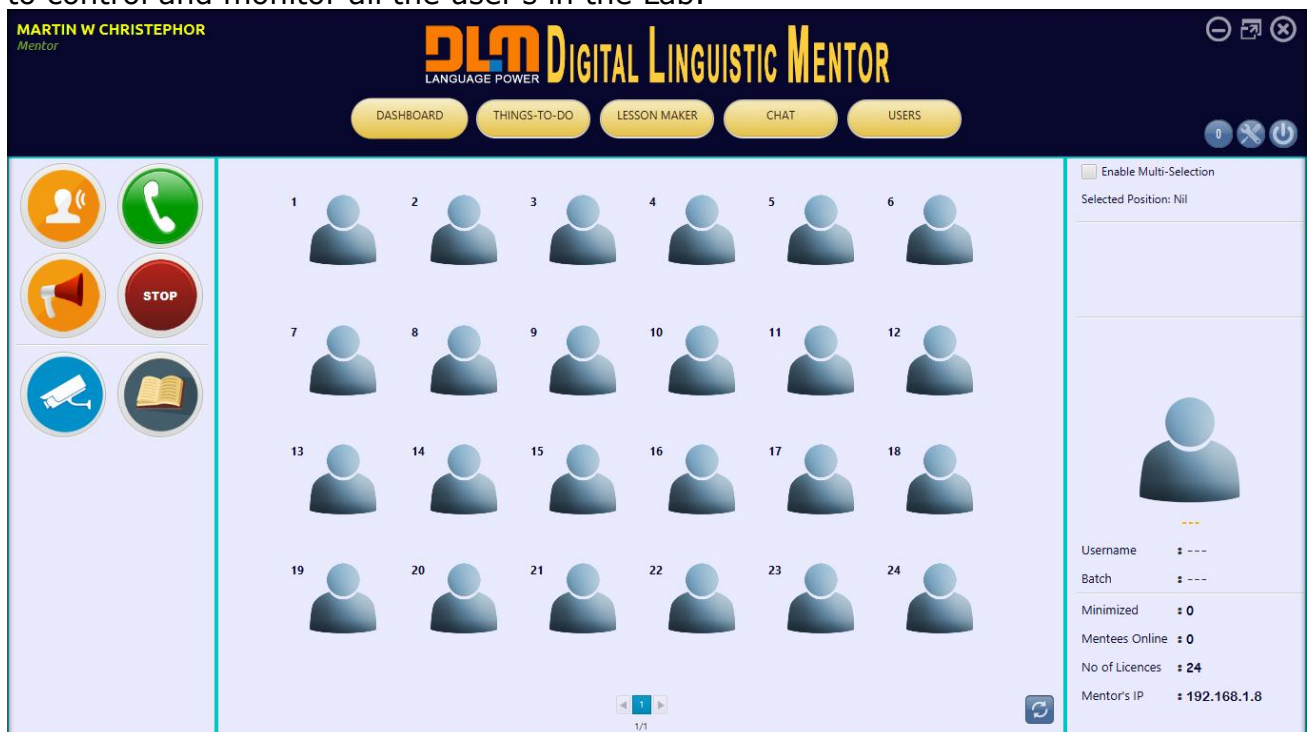

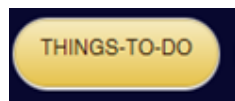

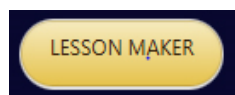

Figure A.1

: The pre-loaded materials will display here.

Figure A.2

: It helps the user to create their own text/audio/video materials.

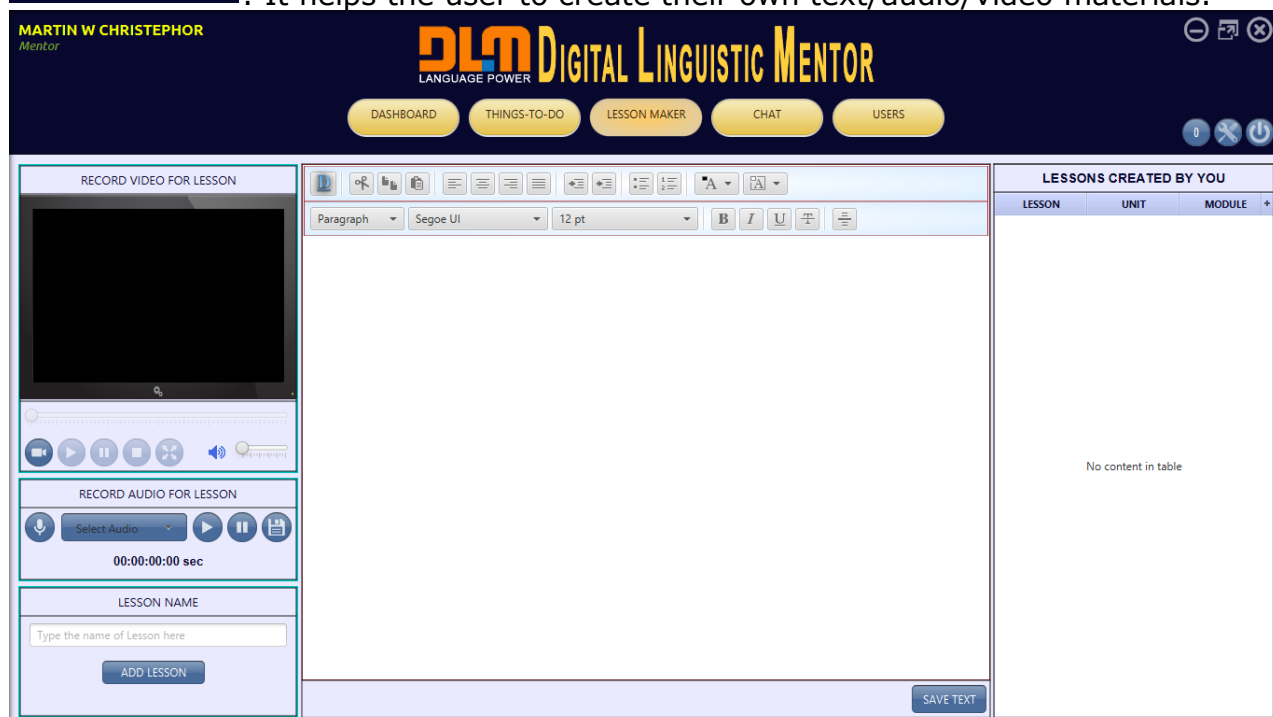

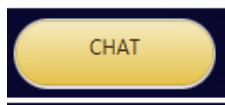

Figure A.3

: This will enable One-to-one chatting with Mentee.

Figure A.4

To view all the users and batches etc.

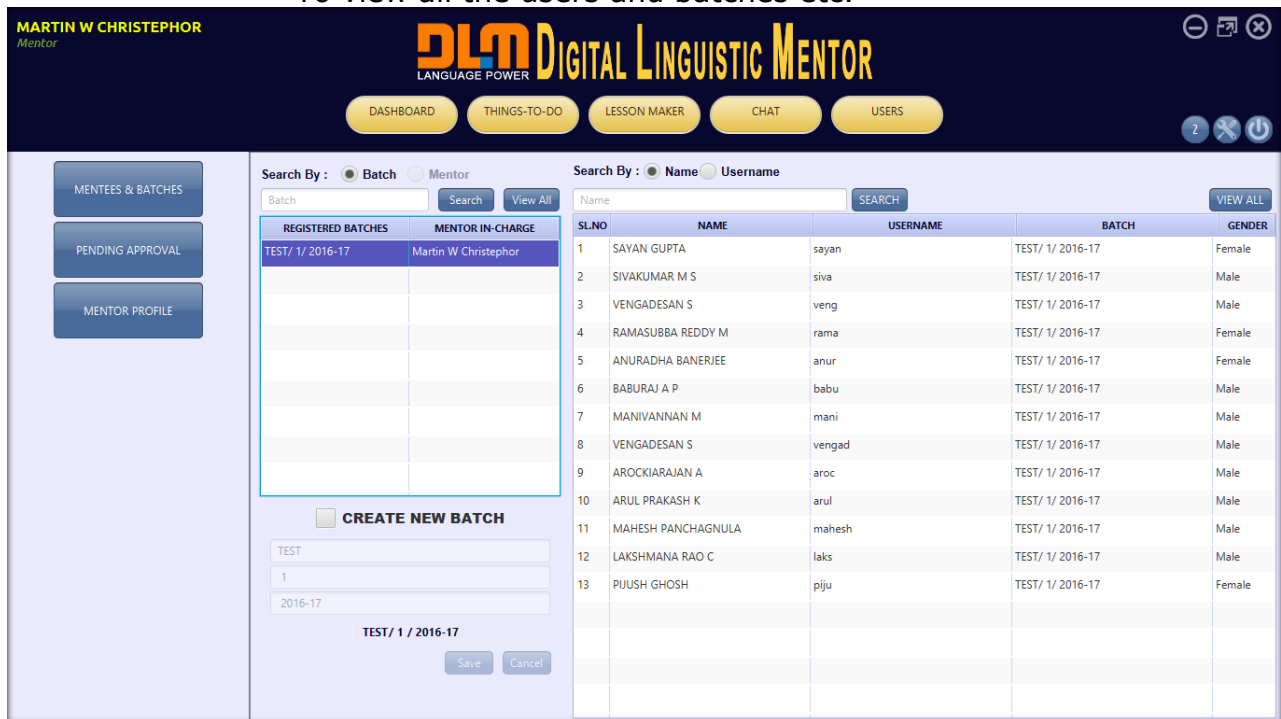

Figure A.5

B: There are six different control tabs, marked here, the functions are listed below,

- Eavesdrop selected student microphone.

- Broadcast general instruction to entire class at once.

- View & capture selected student's monitor.

- In-private, two-way communication with selected student.

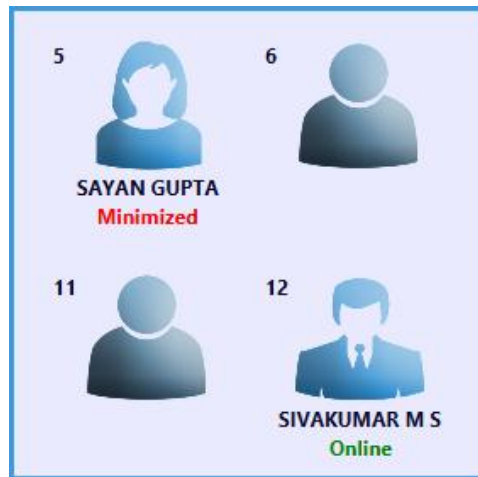

- Pause control & monitoring of students

- Review Mentee assignments submitted

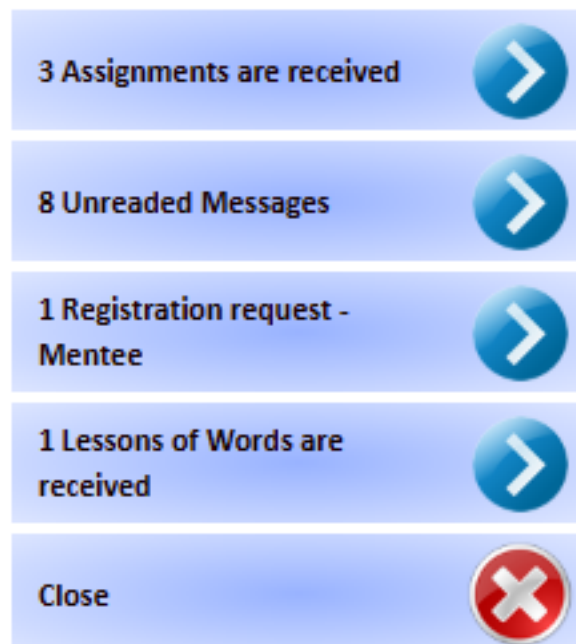

C: Monitor Mentee Activity:

The silhouettes on the homepage are indicative of the number of Mentees in your lab with the logged-in Mentees reflected with their registered names as shown in the sample screenshot below:

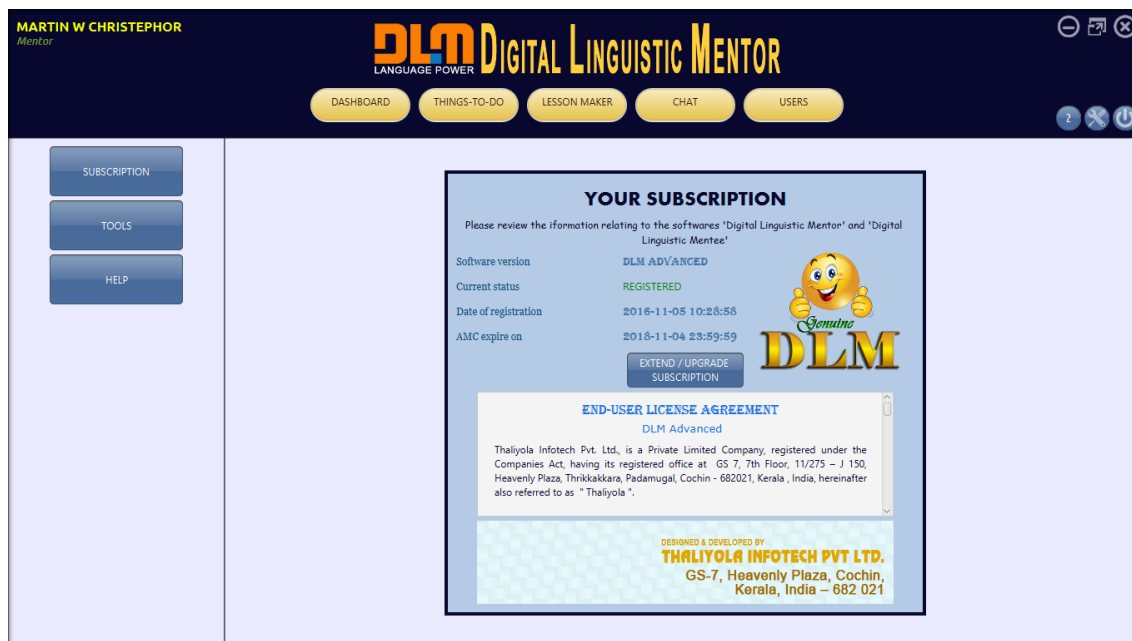

D: All notification link from mentee will display over here,

By clicking this icon it will display notifications as shown below:

E. Advanced settings :

Clicking this icon, pops-open the below given window, which displays your DLM subscription details by default.

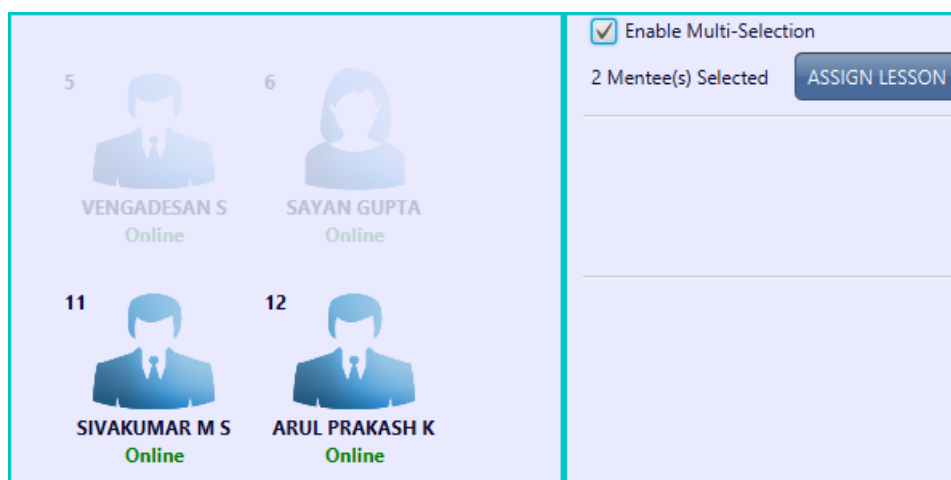

F: Logout

Clicking on this icon logs you out from DLM Application.

G : Multi selection

Select Individual/Multiple Mentee(s) to assign lessons separately.

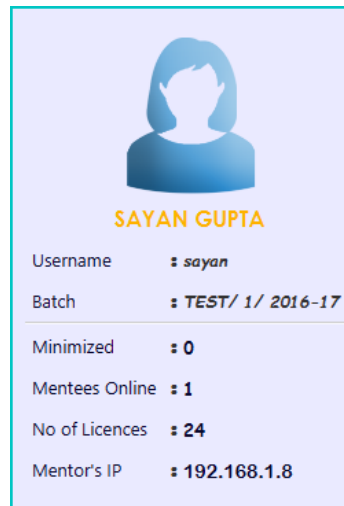

Step1: Tick the check box named enable Multi-Selection

Step2: Select the mentee's from Dashboard.

Step3: Click on ASSIGN LESSON tab for giving separate lesson.

H: Mentee's profile

In this section Mentor can view profile of the selected student.

(Use 'Ctrl' Key + Mouse click to select multiple lessons)

ASSIGN LESSON

To assign pre-loaded lessons to the class, kindly follow the steps below, the steps are marked 1-6 respectively in the above image.

Step1: Select a module name from the list.

Step2: Select a unit coming under the selected module.

Step3: Select a lesson coming under the selected unit.

Step4: Select batch and date .

Step5: Click ASSIGN LESSON button to sent lessons to the respective batch.

Step6: Assigned lessons will be listed on ASSIGNED ACTIVITIES tab.

Right click to play/delete.

NOTE:

- Lessons can be assigned in solo by default . If you want to assign additional lessons from the list, click CTRL button (keyboard) then select multiple lessons. Or if you want to assign entire lessons in the selected unit tick the check box named LESSONS.
- Assigned lessons for the current date will be displayed in ASSIGNED ACTIVITIES Tab & Previously assigned lessons will available on PREVIOUS ACTIVITIES tab.
- By right clicking on the name of the lesson, Name will show the drop down menu to view/edit/delete options.
- Text viewer and word viewer are default application pages .

B) PRONUNCIATION PRACTICE : Pre – loaded lessons for pronunciation practice are available.

To assign words pronunciation practice, follow the steps below , steps are marked 1-6 respectively in the above image.

- Step 1 : Select a module name from the list in MODULES column
- Step 2 : Select a unit from listed units in UNIT column
- Step 3 : Select a lesson from the list.
- Step 4 : Selected batch and date .
- Step 5 : Select ASSIGN LESSON button.
- Step 6 : Assigned lesson will be displayed on PRONUNCIATION-

TODAY tab.

NOTE:

- Lessons can be assigned solo by default . If you want to assign additional lessons from the list, click CTRL button (keyboard) then select multiple lessons. Or if you want to assign entire lessons in the selected unit tick the check box named LESSONS.
- Assigned lessons for the current date will be displayed in PRONUNCIATION-TODAY tab & Previously assigned lessons will available on PREVIOUS ACTIVITIES tab.
- By right clicking on lesson name, drop down menu will be shown to view/edit/delete options.
- Text viewer and word viewer are default application pages .

C) Add new MODULES/UNITS /LESSONS :

Apart from the pre-loaded modules/units/lessons , Mentor has the provision to add / create new.

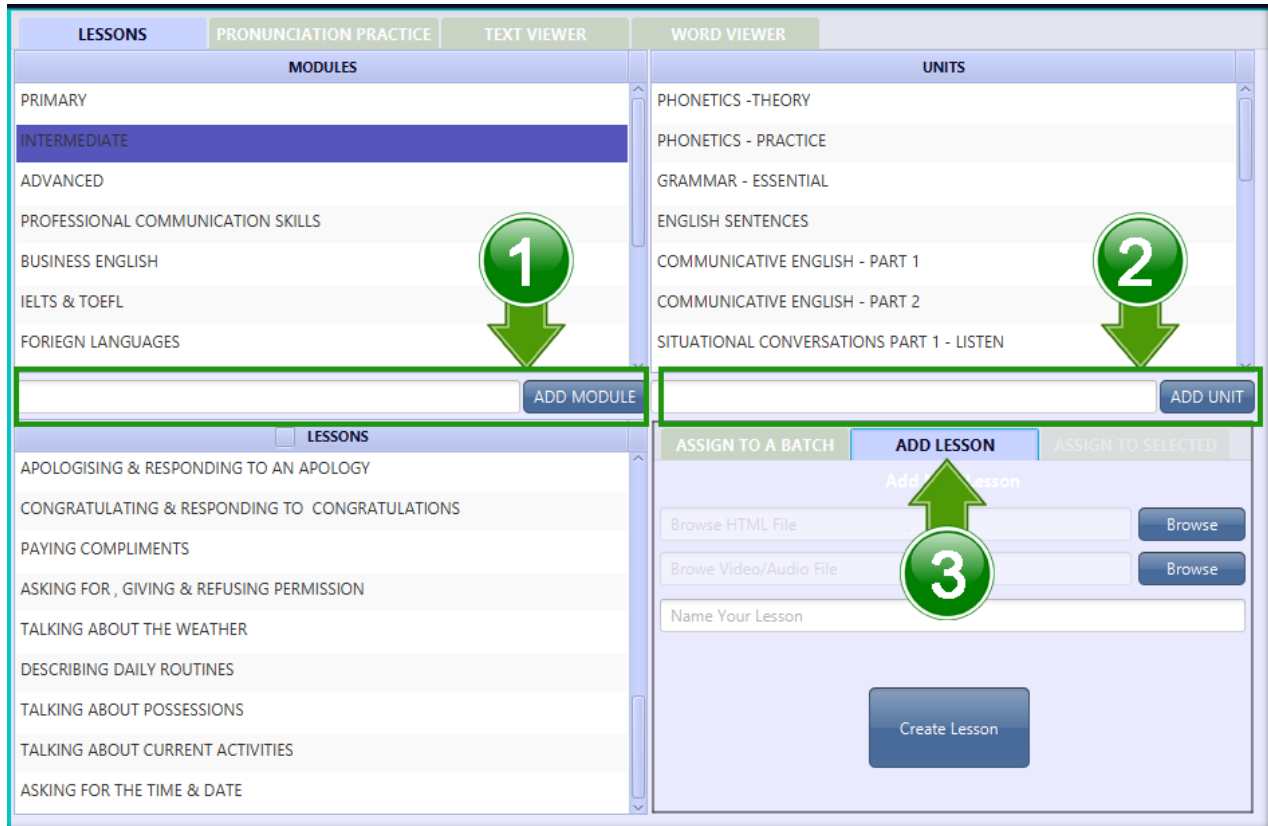

Figure c.1

To add a new module/units/lessons there are 3 simple steps to follow ,those steps are marked 1-3 in the above image respectively.

Step1 : Type a name in the given box then click on ADD MODULE button.

Step2 : Select the module in which you want to add new unit then type the name and click on ADD UNIT button

Step3 : Select the module then select the unit and click on ADD LESSON tab.

Figure c.2

ADD NEW LESSONS :

Mentor can add new lessons by creating their own modules & units

OR

Mentor has the provision to add new lessons in the existing module & units.

There are 8 simple steps to follow and its marked 1-8 respectively in the above image.

Step 1: Select a Module from the list.

Step 2: Select preferred unit from the list.

Step 3: Click on ADD LESSON tab

Step 4: Click the first browser button to add HTML file.

Step 5: Click the second browser button to add audio/video file.

Step 6: Name your lesson to be added.

Step 7: Click on Create Lesson button.

Step 8: On successful creation a pop-up will come, added lesson will be displayed.

[illegible]

3

Paragraph Ubuntu Condensed 14 pt

Safety First

Safety is the state of being "safe" (from French *sauf*), the condition of being protected from harm or other non-desirable outcomes. Safety can also refer to the control of recognized hazards in order to achieve an acceptable level of risk.

1

2

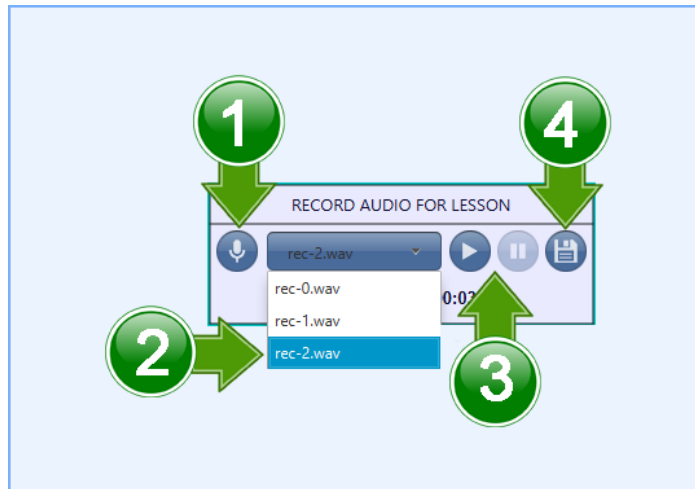

There are two slightly different meanings of safety. For example, home safety may indicate a building's ability to protect against external harm events (such as weather, home invasion, etc.), or may indicate that its internal installations (such as appliances, stairs, etc.) are safe (not dangerous or harmful) for its inhabitants.

Discussions of safety often include mention of related terms. Security is such a term. With time the definitions between these two have often become interchanged, equated, and frequently appear juxtaposed in the same sentence. Readers unfortunately are left to conclude whether they comprise a redundancy. This confuses the uniqueness that should be reserved for each by itself. When seen as unique, as we intend here, each term will assume its rightful place in influencing and being influenced by the other.

SAVE TEXT

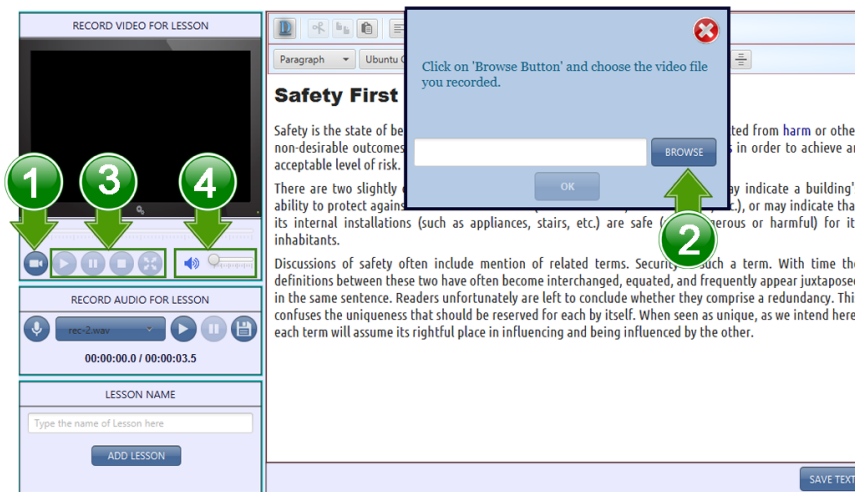

Step 1: Type your content on writing pad
Step 2: Click 2 for Text editing tools.
Step 3: Click 3 for Dictionary
Step 4: To save click on SAVE TEXT.

A) Create audio file:

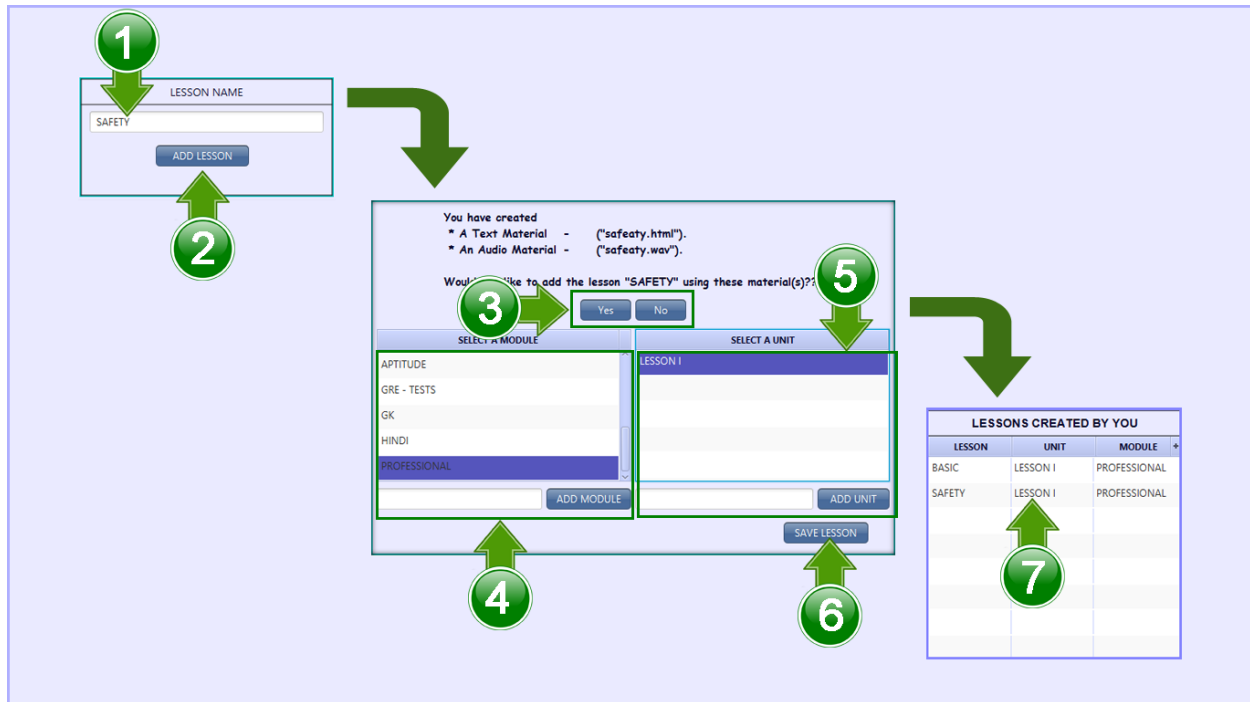

- Step1: Click on record button to start your recording, click stop button to save.
Step2: Select your recording.
Step3: Select temporary saved recording then click on play button to listen it back.
Step4: Click on save button to save your selected audio file.

B) Create a video file :

- Step 1: Click on record button to start video recording. Click stop button to save.
Step 2: After recording, click on browse button to locate your recorded file.
Step 3: Use play button to retrieve listen it back.
Step 4: Audio control button.

C) **Insert /Save the created files into THINGS –TO-DO :**

Adding created files as a lesson in THINGS-TO-DO: The files created through LESSON MAKER should be added in THINGS-TO-DO for assigning those to students.

There are 7 simple steps to follow and it's marked in the above image.

- Step 1: Name your lesson.
- Step 2: Click on ADD LESSON button.
- Step 3: Now you will get a pop – up, click on YES button.
- Step 4: Select preferred module from the list or create a new module.
- Step 5: Select preferred unit or create a new one.
- Step 6: Click on SAVE LESSON button.
- Step 7: Now you can view your created lesson.

CHAT: Mentor has the provision to have text communication with Mentee.

Mentor can have one to one chatting with mentee here, the steps are marked in the above image.

- Step 1: Select the student from the list.
- Step 2: Selected student profile details will be displayed like above.
- Step 3: Type your message in the given box then click on Send button.
- Step 4: Chat history will be displayed here.

In **USER'S** tab Mentor will get three buttons named **MENTEES & BATCHES**, **PENDING APPROVAL** & **MENTOR PROFILE**.

There is a small difference between Mentor User tab and Admin user tab .
Admin will get an additional button named ADMIN.

1. MENTEES & BATCHES: By clicking on Mentees & Batches you will get above picture. Here you are able to create new batches. This option is available for both Admin & Mentor.

A) To create a new batch follow the steps below, Marked as 1 in the above picture.

Step 1: Click on the check box named CREATE NEW BATCH.

Step 2: Type preferred CLASS, DIVISION and ACADEMIC YEAR and select SAVE button. Now batch is created.

B) Assign Mentor to the batch, Marked as 2 in the above image.

If the batch is created by the Mentor, he/she will be the in charge of that batch by default. If ADMIN is creating a batch, ADMIN is having the provision to assign a MENTOR for that batch.

Step 1: Select a batch from the list.

Step 2: Click right button and ASSIGN MENTOR from dropdown menu.

Edit/ Delete/Remove MENTOR options are also available.

C) Search options marked as 3 in the above image :

Two options to search batch wise / Mentor wise.

This will give complete list of batches and Mentor's.

D) Mentees List marked as 4 in the above image :

Mentee's list will be displayed here in the selected batch.

By right clicking on mentee name will give you a drop down menu.

Options to view their profile / remove mentee from the batch.

E) Search Mentees & Batches marked as 5 in the above image :

Able to search Mentee by their name/username .If you click on VIEW ALL button you are able to view complete Mentee and Batch list. (Marked as 6).

MENTEE / STUDENT:

Double-click the mentee icon on desktop (OR Right-click on icon and select "Open" to run application)

Figure 1:

A login/register window as shown below will appear, the first time user has to register to login. Select register tab enter the credentials select gender & batch then click on register.

Figure 2:

On successful registration you will get a window as shown below,

Figure 3:

Once Mentor approves user can login with their user name & password as shown below,

The screenshot shows a web interface for THALIYOLA INFOTECH PVT. LTD. with the address KOCHI, KERALA - 682021. It features a navigation bar with a logo and a settings gear. Below the navigation bar, there are radio buttons for 'Register' and 'Login'. The 'Login' option is selected. The form includes fields for 'Name', 'Username' (containing 'roh2'), 'Gender' (with 'Male' and 'Female' radio buttons), 'Password' (masked with dots), 'Confirm Password', and a 'SELECT BATCH' dropdown menu. A 'Login' button is positioned below the form. At the bottom, there is a logo for 'DLM LANGUAGE POWER' and the text 'DIGITAL LINGUISTIC MENTEE'.

Figure 4 :

After login mentee will get their home page as as shown below ,

The screenshot displays the 'DIGITAL LINGUISTIC MENTEE EXPERIENCE IT' home page. The header features the DLM logo and the text 'DIGITAL LINGUISTIC MENTEE EXPERIENCE IT'. On the left side, there is a vertical menu with icons for 'Listen/Read', 'Speak', 'Write', 'Compare', 'Corrected', 'Pronunciation', 'Chat', 'Call', and 'Dictionary'. Below this menu is a large video player showing a boy speaking into a microphone. The video player has a 'SPEAKING' title and a description: 'Speaking is an interactive process of constructing meaning that involves producing and receiving and processing information'. At the bottom of the page, there is a footer with the text 'Constructive Learning via Participative Instruction'.

Figure 5 :

LISTEN and READ : By clicking on Listen/Read button, student(mentee) will get a page as shown below.

By default, user will get THINGS-TO-DO tab here. There are two sections here named TODAYS LESSONS & PREVIOUS LESSONS . For listening to the todays lessons follow these steps ,

The six simple steps are marked 1 to 6 respectively in the above image.

Step 1: Select LISTEN and READ button to view the assigned tasks by Mentor.

Step2 : Select any lesson from TODAYS LESSONS column.

Step3 : Click on LISTEN button to listen /Read the lesson. Click on stop button to stop audio/video .

Step4 : Audio / Video control

Step5 : Select to maximise the video lesson.

Step6: Use this  button for maximise the reader / text part.

Figure 5.a :

Previous lessons :

Previous lessons :

If user want to check their previously assigned lessons to practice again , follow the steps below

There are simple three steps to follow marked as 1 to 3 respectively in the above image.

Step1: Click on  button for search options.

Step2: User will get two options here , lesson wise or date wise

- a) For lesson wise search you need to enter the lesson name
- b) For date wise search enter the date in between

Step3 : Now click on search button.

Figure 6:

SPEAK / RECORD :

The screenshot shows the DLM interface with a dark blue header. The user's name "SAYAN GUPTA" and email "B. Ed/ S2/ 2016-17" are in the top left. The DLM logo and "DIGITAL LINGUISTIC MENTEE" are in the top center. A sidebar on the left contains icons for Listen/Read, Speak, Write, Compare, Corrected, Pronunciation, Chat, Call, and Dictionary. The main area displays the "Sound symbols" lesson with a large red box containing the letter "I" and a list of words with their phonetic transcriptions: "kɪt / kɪt /", "bɪd / bɪd /", "hɪm / hɪm /", and "mɪnɪt / 'mɪnɪt /". A video player at the bottom left shows a woman speaking. The right sidebar shows "TODAY'S LESSONS" and "PREVIOUS LESSONS" tables. A green circle with the number "1" points to the "Speak" button in the sidebar. A green circle with the number "2" points to the "INTRODUCING PEOPLE TO OTHERS" lesson in the "TODAY'S LESSONS" table. A green circle with the number "3" points to the "SPEAK" button at the bottom right of the interface.

SPEAK / RECORD :

Once user is completed with the listening activity they can move onto Speaking activity . Here user is able to repeat / record their voice along with the native speaker.

There are three simple steps to follow , marked as 1 to 3 in the above image.

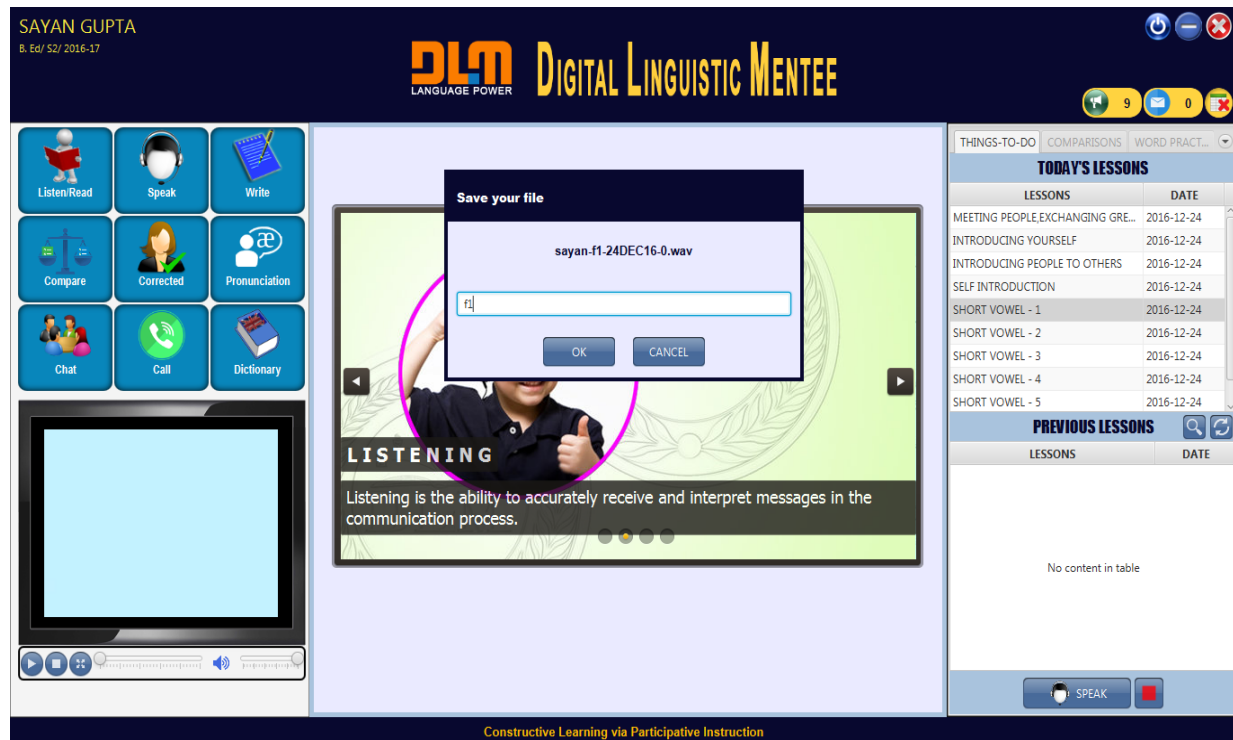

Step1: Click on SPEAK button. User is able to view the lesson list.

Step2: Select the lesson from the list which you want to mimic or repeat.

Step3: Click on SPEAK button to start recording your voice along with preloaded.

If recording activity is completed click on stop button to save.

Figure 6.a:

Save your recording:

By clicking on stop button after recording, user will get the above image.

It will ask to name your recording for saving the recorded file.

User can record the same lesson any number of times for a better result.

By giving names for each recording, user can identify easily each one of them.

Type the name and click on OK button for saving.

Figure 7:

Compare/Evaluate the recorded file:

Compare/Evaluate the recorded file:

After listening & repeating, the third activity of the user is comparing. Here user is able to listen it back their recording along with the native speaker's voice.

There are three simple steps to follow, marked 1 to 3 in the above image.

Step1: Click on Compare tab to get the recorded lessons list.

Step2: Select the recorded lesson from the list.

Step3: By clicking on the compare button, user is able to compare their voice with native speaker's voice.

If the user is satisfied with the recording they can submit that file to Mentor by clicking SUBMIT button.
